

MEMBRANE BIO REACTOR

A combination of activated sludge process and membrane filtration

Key Features:

- **Skid mounted systems**
- **Easy to install**
- **Modifications / upgradation of existing systems are possible**
- **Integrated membrane cleaning system**
- **Reduces Footprint**

Application:

- **Small, medium, large sized Sewage treatment plant**
- **Industrial ETP like pharma, distilleries, sugar, breweries etc.**
- **Revamping or upgradation of existing systems.**
